The morning was round robin tournament style competing against 3 schools - they lost the first match - mostly because of getting used to the formatting of the questions and how to answer, which resulted in lots of penalty points. Then, they then won the next two matches. In the afternoon, the top 8 teams went into a double elimination tournament round. They lost the first, won the second, and lost the 3rd. All of the students said the competition motivated them to study so we can return strong next year!
- A special thank you to Rachel Turner for being their science teacher representative at this competition.
